

FT FELLING TRAILERS® SIDE DUMP

DUMP

Tool box contains: hydraulic power unit with remote and chargeable battery.

SIDE DUMP TRAILER FT-12DE-SD, FT-14DE-SD & FT-16DE-SD

The **FELLING** Trailers' "Side Dump" landscape trailer is an asset to any landscaper's fleet. The "Side Dump" trailer eliminates the need for multiple trailers to meet your needs for hauling and removal all in one. Standard with split-full width, spring-assist ramps, this trailer is accommodating to skidloaders and narrow equipment/machines with smaller tires such as lawnmowers, sod cutters, curb machines, sweepers, etc. Available in three different sizes ranging from 6 ton to 8 ton carrying capacities and deck lengths of 14' or 16'. These units can be built with a gooseneck hitch in lieu of the standard "bumper pull" style hitch along with an array of options to meet your every need.

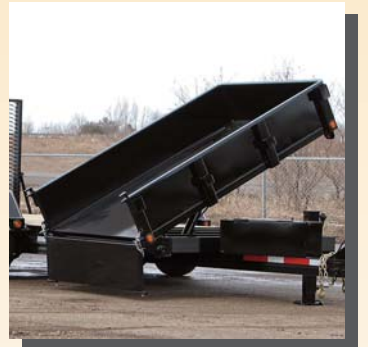

Model shown is the FT-14DE-SD.

Double acting spreader gate opens from either the top of the dump box (as shown above.) Or opens from the base of the dump box (as shown below.)

STANDARD FEATURES:

- 5' x 8' dump box with electric/hydraulic pump and battery box.
- 10 ga. steel floor (dump box)
- 16" high 12 ga. sides on dump box (96" ID)
- Pressure treated wood floor (main deck)
- Split full width ramps
- 12,000 lb. drop-leg jack
- Double acting spreader gate
- 12 volt hyd. power unit with remote
- Chargeable battery
- (6) Stake pockets
- D.O.T. approved rubber mounted LED lighting
- Industrial urethane paint and primer
- Conspicuity tape

REMOVABLE SIDE PANEL

The removable side panel allows for more space to haul equipment, load shrubs, trees, etc. to deliver to the job site when the dump box is not in use. The panel stores securely and conveniently on the front of the trailer as shown in the picture on the far right.

FELLING DUMP TRAILERS

The **FELLING** Dump Trailer line consists of three main styles; "DT-E" Series, a heavy duty dump trailer built to handle the big jobs, the dump box is placed between the wheels allowing easier loading and low center of gravity. "DT-HD" Series, designed as a multi-use trailer, you can use to haul your skid-loader (slide-out ramps) and other cargo (rocks, construction waste, demolition debris, landscape waste, etc.) Serves as both a skidloader and dump trailer in one. "DT-DO" Series (Deck-over Hydraulic Dump Trailer,) features a wider box since the box does not have to be contained between the wheels. The box is positioned above the wheels allowing a wider stance; thus giving a larger payload capacity! Stop and compare our product with the others and you will see why **FELLING** is a leader in trailer design and durability! GVWRs ranging from 6,000 to 40,000lbs.

FT-12DT-HD - FT-14DT-HD

Standard double rear swing-out doors shown above.

FT-16DT-HD

5' slide-out ramps with storage under rear of trailer. Standard double rear swing-out doors shown to the left.

FT-20-2DT-U

Shown to the left is the Full Swing End Gate.

Shown to the right the scissor hoist is partially extended and the Rear Dump Gate is in use.
